An efficient technique for figuring out a worth is to ship out a survey to your present customers. If these customers have already purchased an e book from you, ask for his or her opinion when it comes to price. Do that by making a gross sales web page for the new guide, but do not include a price on that page. Instead, add a variety of links to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other strategy is to test out prices by making a number of duplicate gross sales pages with totally different costs on every page. Be sure that your gross sales copy is strictly the identical

on each web page, and contains your promoting-handle sentence. Then determine for each web page the conversion ratio between guests to your site and sales of your book. This may tell you what your optimum value is.

Finally, for those who've written a e-book that solves a problem or presents a brand new approach, your book will bring in each site visitors and profits.
