An effective approach for determining a price is to ship out a survey to your current customers. If these clients have already bought an e book from you, ask for his or her opinion in terms of price. Do that by making a gross sales web page for the new book, but do not embrace a value on that page. Instead, add numerous hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other technique is to test out costs by making a number of duplicate sales pages with completely different costs on each page. Make certain your gross sales copy is exactly the same on every web

page, and contains your promoting-handle sentence. Then determine for each page the conversion ratio between guests to your website and gross sales of your book. It will let you know what your optimum worth is.

Finally, when you've written a ebook that solves a drawback or presents a new approach, your e-book will herald each site visitors and profits.
