An efficient approach for determining a value is to ship out a survey to your current customers. If these customers have already bought an e-book from you, ask for their opinion in terms of price. Do that by creating a sales page for the new book, but don't embody a price on that page. Instead, add various hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another technique is to test out costs by creating a number of duplicate gross sales pages with completely different costs on every page. Be certain that your gross sales copy is precisely the similar on each page, and consists of your selling-handle sentence. Then determine for each web page the conversion ratio between visitors to your website and gross sales of your book. This will inform you what your optimum price is.

Ultimately, if you happen to've written a ebook that solves a problem or presents a new method, your e-book will usher in both traffic and profits.
