An effective approach for determining a worth is to ship out a survey to your current customers. If these prospects have already bought an ebook from you, ask for their opinion in terms of price. Do this by creating a gross sales page for the new e-book, but don't include a value on that page. As a substitute, add various links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another strategy is to check out prices by creating a variety of duplicate sales pages with completely different prices on each page. Be certain that your gross sales copy is strictly the identical on each web page, and contains your selling-handle sentence. Then work out for each web page the conversion ratio between guests to your website and sales of your book. This will let you know what your optimum value is.

Finally, if you happen to've written a guide that solves a downside or presents a brand new approach, your e-book will bring in both traffic and profits. So you'll want to write that promoting-handle sentence that sums up what drawback your book solves and what the advantages of your 200 ebook will be to the customers who purchase it.
