An efficient technique for determining a price is to send out a survey to your current customers. Do this by creating a sales web page for the brand new guide, but do not include a price on that page. Instead, add a variety of hyperlinks to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

One other strategy is to check out prices by making a number of duplicate gross sales pages with different costs on each page. Be certain your gross sales copy is strictly the similar on each web page, and contains your selling-deal with sentence. Then determine for every page the conversion ratio between visitors to your web site and sales of your book. This can inform you what your optimum worth is.

Finally, should you've written a e book that solves a drawback or presents a new technique, your

guide will usher in both site visitors and profits. So make sure to write that promoting-handle sentence that sums up what downside your guide solves and what the benefits of your 2557 e-book will probably be to the customers who buy it. And then watch your market come to you!
