An efficient approach for figuring out a price is to send out a survey to your present customers. If these customers have already purchased an book from you, ask for their opinion in terms of price. Do that by creating a gross sales web page for the brand new book, but do not embrace a value on that page. As a substitute, add a variety of links to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other strategy is to test out prices by making a number of duplicate sales pages with different prices on each page. Ensure your gross sales copy is strictly the similar on each web page, and contains your selling-handle sentence. Then determine for each web page the conversion ratio between guests to your web site and gross sales of your book. This will inform you what your optimum worth is.

Finally, if you happen to've written a book that solves a downside or presents a brand new technique, your e-book will usher in each visitors and profits.
